DETAILED ACTION

This is a response to the Applicants' amendment submitted on April 7th, 2005. In virtue of this amendment, claims 6 and 15 are canceled; and thus, claims 1-5, 7-14, and 16-18 are now presented in the instant application.

Allowable Subject Matter

1. Claims 1-5, 7-14, and 16-18 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or fairly suggest:

- A lamp driving apparatus of a liquid crystal display wherein a primary winding and a secondary winding of the transformers that supply current to the odd-numbered lamps are wound in the same direction and a primary winding and a secondary winding of the transformers that supply current to the even-numbered lamps are wound in the opposite direction from each other such that the odd-numbered lamps have different phase from the even-numbered lamps, in combination with the remaining claimed limitations as called for in independent claim 1 (claims 2-5 and 7-9 are allowed since they are dependent on claim 1); and
- A lamp driving apparatus of a liquid crystal display comprising an inverter block having a first plurality of transformers that convert a voltage from a voltage source into a drive current and supply the drive current to the plurality of lamps, wherein the plurality of transformers that supply the drive current to the even-numbered lamps have a first phase and the plurality of transformers that supply the drive current to the

odd-numbered lamps have a phase opposite the first phase, and wherein a primary winding and a secondary winding of the transformers that supply current to the odd-numbered lamps are wound in the same direction and a primary winding and a secondary winding of the transformers that supply current to the even-numbered lamps are wound in the opposite direction from each other, in combination with the remaining claimed limitations as called for in independent claim 10 (claims 11-14 and 16-18 are allowed since they are dependent on claim 10).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of relevant prior art

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Prior art Lin et al. (Pub. No.: US 2004/0207339 A1) discloses a power supply for an LCD panel.
